## PROFILE

I'm an experienced Front End Web Developer with a passion for creating engaging online experiences. I have over 2 years of experience in web development, specializing in front end technologies. I stay up-to-date with the latest trends and best practices in web design and development. My strong attention to detail and organization skills ensure that the websites I build are not only visually appealing but also highly functional and user-friendly. I excel at communication and collaboration, working closely with clients to understand their needs and deliver solutions that exceed their expectations.
